BALSAM.

This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains, in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Diptheria.

No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no bluing required to make your clothes look clear and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

NEW ADVERTISEMENTS.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than **500,000** of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by watch-makers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above-mentioned improvements which tend to ensure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:

AMERICAN WATCH CO., Waltham, Mass.
AM'N. WATCH CO., Waltham, Mass.
AMERICAN WATCH CO., Crescent St., Waltham, Mass.
APPLETON, TRACY & CO., Waltham, Mass.
AMERICAN WATCH CO., Adams St., Waltham, Mass.
WALTHAM WATCH CO., Waltham, Mass.
P. S. BARTLETT, Waltham, Mass.
WM. ELLERY, Waltham, Mass.
HOME WATCH CO., Boston, Mass.

Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit.

For sale by all leading Jewelers. No watches retailed by the Company.

Truthfulness at Home.

Of all happy households that is the happiest where falsehood is never thought of. All peace is broken up when once it appears there is a liar in the house. All comfort is gone when suspicion has once entered when there must be reserve in talk and reservation in belief. Anxious parents, who are aware of the pains of suspicion, will place general confidence in their children, and receive what they say freely, unless there is strong reason to distrust the truth of any one. If such an occasion should unhappily arise, they must keep the suspicion from spreading as long as possible, and avoid disgracing their poor child while there is chance of its cure by their confidential assistance. He should have their pity and assiduous help, as if he were suffering under some bodily disorder. If he can be cured he will become duly grateful for the treatment. If the endeavor fail, means must of course be taken to prevent his example from doing harm, and then, as I said, the family peace is broken up, because the family confidence is gone. I fear that from some cause or another, there are but few large families where every member is altogether truthful. But where all are so organized and so trained as to be wholly reliable in act and word, they are a light to all eyes and a joy to all hearts. They are public benefits, because they are a point of general reliance; and they are privately blessed within and without, without their life is made easy by universal trust; and within their heart they have the security of rectitude and the gladness of innocence.—*Harriet Martineau.*

How Nitro Glycerine is Made.

This wonderful explosive was discovered in 1847 by an Indian named Sabero, but its practical application was made by Alfred Noble, a Swedish engineer. The process by which it is made is thus described: Every one knows what glycerine is—a clear syrupy liquid, sweet to the taste and somewhat greasy to the touch. Its scope of employment ranges from the surgeon's dispensary to the lady's boudoir.—A great number of chemists term it a triatomic alcohol, and it may be derived from fat of tallow by the action of lime and sulphuric acid. Its properties are many and various, but as they have no bearing upon the present subject, we shall abstain from noticing them. If a quantity of nitric acid be added to twice its weight of sulphuric acid, glycerine be poured into this, and carefully stirred, the whole being surrounded by a freezing mixture, we obtain that wonderful substance known as nitro glycerine, which has ten times the explosive force of gun powder. It forms on the surface as an oily liquid of a pale yellow color, is perfectly inodorous, and has a sweet aromatic taste It is poisonous, whether taken internally or absorbed through the skin, and small doses produce distressing headaches. It does not explode when brought in contact with fire, and remains unchanged even when raised to the temperature of boiling water, and at about forty degrees Fahrenheit it becomes converted into an icy mass, which merely requires friction to develop all its explosive qualities.

The Ballot-Box in England.

It has taken forty years to convince Englishmen of the advantages of secret voting. It is a curious reminder of the long interval of political thought that divides us from the communities of the Old World, to find a Liberal Ministry introducing their Ballot bill at a moment when many of our advanced thinkers are beginning to defend a return to the open exercise of the electoral franchise. Mr. Foster, who has undertaken the task of conducting the Government bill through its various stages, grounds his support of the measure upon the fact "that it would destroy the illegitimate influences of bribery and intimidation, which are the besetting sins of our parliamentary system." The besetting sins of our system—repeating and ballot-stuffing, or—or, as the English Cabinet Minister calls them, "personation" and "forgery," are but very slenderly provided against. Secrecy is at present considered by the majority of British Liberals to be the infallible panacea for electoral corruption; though we shall, not improbably, find them in rather less time than another generation, recognizing the fact that the monster is hydra headed, and can adapt itself to the restrictions of the ballot as readily as to the public huckstering of open votes.—*Times.*

How a Young Lawyer was Taken Down.

Young lawyers sometimes despair of defences which give no encouragement, but old practitioners, more especially when the fees are remunerative and certain, can see no discouragements held forth by the evidence not to be counterbalanced and overcome by professional acuteness and sagacity well paid.

A prisoner was once arraigned in Kent County, Michigan, for stealing pork. He retained a young, talented, and ingenious member of the profession for his defence.

Having listened to the prisoner's own story and heard from him what in all probability the people's witnesses would swear to, he candidly informed his client that it was useless to waste money on his defence.

"Never you mind," was the confident reply, "you argue my case good and strong just as if you believed me a persecuted man and here is twenty dollar dollars for you."

The lawyer worked up the contract, and before he had half summed up he had the jury in tears.

To his astonishment his appeal was effective—the prisoner was acquitted.

Closeted together after the verdict and discharge of of the culprit, and the twenty dollars having been paid over, the lawyer said:

"By-the-by, B——, that was a most surprising verdict, considering what the Government proved."

"Not at all," was the cool reply; "six of them jurymen had some of the pork."

The mercury in that lawyer's bump of self esteem fell to zero.

NEWPORT DAILY NEWS.

TUESDAY, March 14, 1871.

Coming Home.

The San Domingo Commission have concluded their investigation of that "land of promise," and are coming home. Three week's sojourn has convinced the Committee that the land flows with "milk and honey," that the people, (where the United States guns keep guard), are unanimous for annexation, and that if we accept of the island with its enormous public debt, the Haytien war and all, we shall greatly enrich our coffers, besides adding immensely to our military strength.

The farce of the whole concern can be readily seen. In the first place a packed committee is sent by the President to examine into the condition of the country. On arriving at the place of investigation, they are feasted by Baez for a few weeks, keeping all the time out of sight of the opposing party, under Cabral; and now they are reported unanimous in favor of annexation. They could just as well have remained at home and given the same opinion, and thereby saved the country an expense of a few thousands.

But would it not be well, before it is irrevocably made a part of our public domain, to take into consideration the fact that President Baez holds sway over the island, only by the aid of the Federal Navy? that Cabral, who has with him a majority of the islanders, is bitterly opposed to the movement, and will cause much trouble to the Government, if annexation is decreed? These and a few other slight drawbacks—such as the impossibility of any white man living there on account of the climate, and others of similar nature, which might be mentioned, will render the acquisition not altogether a net profit to its possessors.

Immigration.

One of the first effects of the Franco-Prussian War upon this country was the almost immediate suspension of immigration from the nations involved. France had use for all her sons at home and the German love for the "faderland" kept back hundreds that would have otherwise sought our shores. But now that the war is over we may count on additions from Europe in such numbers as we never have seen before. We are told that all Alsace is coming over to begin with if not part of Lorraine. Dissatisfied with their new masters, they will seek more congenial lands and naturally will they look to our country.—France will be much more numerously represented in our immigration lists than she has ever been. Whoever can get away will be sure to try it; and the plan of colonizing, which has begun to be such a feature in immigration, is likely to give a still more powerful stimulus to the movement.

The troubles in Europe seem to be not yet fully settled. In fact they may be but just begun. In the general confusion, and unsettled state of affairs it would seem quite natural that the population of the different countries of Europe should look about them and seriously consider the chances of bettering their condition and securing peace and safety. And as no door is open to them but emigration, they will resort freely to that. Therefore we count on an accession to our population this year, greatly surpassing that of any year in our experience.

More Land Grants Asked For.

The *Advertiser's* Washington correspondent says that not disconfited by the fate which attended nearly all the schemes for land grants last session, the present session opens very lively with bills of this character. In the Senate there have already been introduced eight bills calling for public lands to aid in the construction of new railroad lines. They are the Oregon Branch Railroad bill which failed last session, although being passed by one House. It provides for the construction of a railroad from the north bend of the Humboldt River in Nevada to Rogue river valley in Oregon, establishing a connection between the Central Branch Pacific and Oregon and California railroads. It also gives to the road ten alternate sections of land per mile, or a total of 4,760,000 acres. Then comes the Kansas Pacific Railroad with a proposition for an extension from Ellsworth to the northern boundary of Mexico, asking for twenty sections of land to a mile in the Territories and ten sections in the States, or a total of 11,000,000 acres. The Great Salt Lake and Colorado river, beginning at Salt Lake City, running thence to the head of navigation on the Colorado river and thence into the head of the Gulf of California, desire ten sections per mile along the entire route, or a total of about 6,000,000 acres. The Pacific Great Eastern bill, to construct a road through Missouri and Arkansas on the 30th parallel to the western boundary of the latter State, provides for ten sections a mile, and where the lands have been occupied along the route of road the equivalent of such occupied lands from any unappropriated lands nearest the line of the road in either State. The Savannah and Memphis railroad to have every alternate section along the route within fifteen miles of the line, as now located, in the following terms: The public lands remaining unsold and which have been in the market for ten years, one dollar an acre; fifteen years, seventy five cents an acre; twenty five years, twenty five cents an acre; thirty years, twelve cents an acre. And lastly Mr. Osborne's bill granting lands to aid in the construction of several Florida railroads, granting to each road ten sections a mile.

The Telegraph in London.

An old lady had given permission for some wires to be placed on her house, where they were supported by a pole. After these had been in position some few weeks, the old lady waited upon the principal telegraph authority, and stated that she had a complaint to make. "The fact is, sir," she said, "them telegraph messages won't allow me to get any sleep of a night; I lays awake, a tossing about, and can't get a wink for the noise. At first, sir, I didn't mind it as much, and things were not as bad as they are now; but lately, sir, there have been a deal more messages. I don't think, either, sir, that you are aware of all that's said along them wires; there's a much that hadn't ought to be; for I can assure you, sir, that very much that's said there—and I have to listen to—no respectable woman ought to hear. So I've come at last to complain to you, sir, hoping it may be stopped." The gentleman to whom this singular complaint was made was, of course, aware that the noise complained of was the wind in the wires; the messages of a doubtful character were the emanations of a frightful imagination on the part of the old lady. He, however, pacified her by stating that, in future young women of great respectability were to be substituted at the offices for the young men who formerly worked the lines.

Lying in Bed.

It is often a question among people who are unacquainted with the anatomy and physiology of men, whether lying with head exalted or on a level with the body, is the most unwholesome. Most, consulting their own ease on this point, argue in favor of that which they prefer. Now, although many delight in bolstering up their heads at night, and sleep soundly without injury yet we declare it to be a dangerous habit. The vessels in which the blood passes from the heart to the head are always lessened in their cavities when the head is resting in bed higher than the body; therefore, in all diseases attended with fever, the head should be pretty nearly on a level with the body; and people ought to accustom themselves to sleep thus, and avoid danger.

About Home.

The steamer *Bay Queen* will take her place on the Bay the first of April.

WICKFORD RAILROAD.—The advertisement of the proposed sale of the Wickford Railroad has been withdrawn. We understand the arrangements are completed so that the road will be run according to the original design.

DELAYED.—The New York boat from Fall River, did not arrive here till about ten o'clock. Some trouble with the boiler caused the delay. The damage was repaired, however, and the boat went on to New York.

SAD ACCIDENT.—The staging of the Continental House, at the Pier, gave way yesterday, and three men were thrown to the ground. One man, Jesse Simmons, a painter, was instantly killed, John Doeray jr., had a leg broken, and the third man escaped with slight injuries.

PERSONAL.—Rev. T. Logan Murphy has purchased of Messrs. Malcom and Hozards, a lot on Kay street, corner of Everett Place, containing 14775 feet, for $3,604,25. We hear that he proposes to build a fine residence thereon without delay. Two other houses are to be built in the same vicinity the present season.

FALSE ALARM.—The youngsters about town, not content with making night hideous with their "infernal machines" we should call them, not knowing any more appropriate name for them, concluded to start an alarm of fire, about nine o'clock. The engine companies were all called out, and ran up Thames street as far as the Parade, when finding it was a "sell" they quietly retired.

ARRESTS.—Two men in the Station House this morning. Times looking more lively for policemen. One of the men was arrested last night for drunkenness, the other is a deserter, captured yesterday in Boston, and brought down on last night's boat. He has been gone from Fort Adams a year and a half.

Another deserter was captured yesterday at Providence, and returned to his old quarters at Fort Adams last night.

THE NEW BAND.—Young America turned out in full force last evening. The boys, profiting from an article in the newspapers, organized, and proclaimed their presence in a manner not to be misunderstood. For once, at least, they found the information given in the public prints correct, and their "roosters" crowed precisely according to the programme. We shall not attempt to describe the music, as it must be heard to be appreciated. The entertainment last evening seemed to be enjoyed by all classes, but we trust it will not be too frequently repeated. Let it be a rich and a "rare" treat for the people of Newport.

COURT OF JUSTICES.—Henry Hudson was arraigned before this Court, this morning, upon complaint of the City Marshal, for larceny of about eight dollars worth of curled hair, from Edward A. Hassard. Hudson entered the carriage house of Mr. Hassard on Barney street, and cut open the cushions of his carriages, to get the hair with which he proposed to "raise the wind";—but it has proved to be rather an unprofitable speculation, and a little "hair of the same dog" applied in the way of legal penalty, may work a cure of this peculiar kind of *kleptomania*, as he was sentenced to three months in the Providence County Jail, where it is to be hoped he may do the State some service and himself be benefitted thereby.

Gorton D. Oxx was arraigned upon a complaint for an alleged assault, on Saturday last, upon Fanny Lucas, wife of Luke Lucas, and also upon a second complaint for an assault upon her son, Wm. H. Lucas.

From the testimony of Mrs. Lucas and her son, corroborated in part by the testimony of Henry Lewis, who was passing at the time, and who saw a part of the fray, there had been a feud of a long standing between the families of the assaulter and assaulted,—that on Saturday last as Mr. Oxx was passing Mr. Lucas' house, a boy ten years old, not a member of Mrs. Lucas' family, but boarding with her, stood in the doorway dressing himself, and calledout to him in a very insulting manner, upon which, Mr. Oxx being highly exasperated started in pursuit of the boy. Entering Mr. Lucas' house, and pursuing the boy, he was seized upon by Mrs. Lucas, as was natural enough, her husband being absent, and there was quite a tustle, during which her son, a lad some sixteen years old joined in to help his mother, and as Mr. Oxx testified, struck him twice in the back. Mrs. Lucas testified that Mr. Oxx struck her, and the lad sure that Mr. Oxx also struck him, and both sure that Mr. Oxx burst open the door violently with a huge pavement which was brought into court. This Mr. Oxx denied as also the striking in both cases, but that his object, upon being insulted by the smaller boy, was to rush in and take him to the Station House. The fact in the case no doubt is, as was stated by Mr. Peckham in his argument for the prosecution, that all parties were greatly excited and can hardly be relied upon in testifying to particulars. Mr. Oxx did wrong in entering Mr. Lucas' house and of course must be punished I and where a feud exists between two families it is highly dangerous and improper for a person to take the law into his own hands—but it is very doubtful, if there was a great deal of *striking* in the premises, as Mr. Oxx is a powerful man, who would have left his mark.

The court adjudged Mr. Oxx to be guilty and sentenced him to pay a fine of five dollars and costs in the first complaint and one dollar and costs the second.

Colonel von Schmidt, the California engineer, has undertaken to drill a tunnel five miles long through the Sierra Nevada, to bring the water of Lake Bigler to San Francisco. He will commence next summer and expects to finish his work in four hundred and fifty days.

The Magazines.

EVERY SATURDAY.—The number for March 18 contains an Illustration of the Hon. Lyman Trumbull. Charles Reade's story is continued and many other grand things are found there.

LA FRANCE ELEGANTE is an illustrated magazine of fashions, and we should judge a very good one.

A NEW HEALTH JOURNAL.—HEALTH and HOME is the title of a new health magazine, of 44 pages royal octavo, just issued in very neat form by W. R. De Puy & Brothers, 805 Broadway, New York. The publishers offer it to subscribers at $1,50 a year, and call for canvassers in all parts of the country to whom they will pay large cash commissions.

THE STATE AUDITOR has our thanks for copies of the "statement of the condition of the Banks" and the report of the auditor at the January session 1871.

Fall River.

The interesting and thrilling allegory of the Drummer Boy is being again exhibited in City Hall, Fall River, this week, by Post 141, G. A. R., of this city. The first exhibition was given last evening.

The body of an unknown man was discovered yesterday morning, floating in the water near Derrick's wharf. It was taken out, but no one was found who could identify it. It is supposed to be the body of a sailor belonging to one of the Prussian barks recently at this port.

The Stump.

In no particular has our talent degenerated in greater degree than in the matter of stump oratory. Twenty years ago he would be a bold man indeed who, without the slightest qualification for public speaking, or without any order of thought, would dare to address his intelligent fellow citizens; but now the *cacoethes loquendi* prevails universally, and insignificant sounds from very empty heads are the common rule, with very few exceptions. The stump used to be respectable; now we dignify its character when we call it contemptible. No doubt there are men of talent who occasionally speak on public questions, or rather pretend to do so; but instead of dealing with principles, or expounding valuable politico economical questions, they generally lay themselves out for a retrospect of all that has been blamable, from their standpoint, in their opponents' political history, and carp away on dead events, and still more defunct issues, until they fill their really honest and intelligent hearers with sorrow and disgust. This is not the kind of political pabulum the people, or at least that portion of them whose opinions are worth anything, desire to hear; and to its operation, more than to anything else, is to be attributed that disregard of political duty which holds so many away from the polls, and also tends to keep in the direction of great political movements the men who are least capable, on the score of character and attainments, from managing them. We could hardly expect to keep up the fame of our Websters, Choates, Woodburys and Rantouls, for these were men which centuries are required for; but we have fallen much too far below their standard in the way of stump oratory than we ought to have done, or have the right to tolerate. Will old Faneuil Hall ever again echo the sentiments of genuine statesmanship? or must our great fame on the rostrum remain only a memory, dimming as the years dance away?—*Boston Times.*

George Francis Train.

We clip the following from the Hartford *Courant*: The irrepressible George Francis Train (the independent candidate for the presidency of these United States) is no sooner out of an English bastile than he is popped into a French prison, and no sooner out of that than, presto! he is caged in Chicago. For these two things is G. F. T. remarkable, he is the foremost man of the age, and he is a martyr to principle. The first he believes, and second he tries to act. To make political capital he spouted treason on the soil of England and challenged to mortal combat the redoubtable British lion; his little game was to be tried for treason, felony, be confined in Portland prison with O'Donovan Rossa, and come back at the procession of exiles from Erin to the White House, *via* a New York reception and demonstration. But it wouldn't work; he was shut up in Bridewell, Dublin, for debt, and was kept there till a settlement was made. Now he is in quod in Chicago, and all about a paltry forty dollars. The debt was incurred in 1868, for posting on an occasion when he was to speak at a political meeting, placards and streamers. He says the republican committee was in duty bound to discharge the bill, but as he advertised georgefrainism instead of republicanism at the meeting, they think he should settle. He, being a non-resident, was arrested night before last for refusal to come to terms, and avers that he will not pay the bill if they keep him in jail a year. Make it two, George, and insist on their keeping you. The *Mail* of the other day was to contain an address, *e pluribus unum*, explaining his position, and stating that this being the eleventh jail he has seen the inside of he has come to the conclusion that an honest man cannot remain out of jail.

Maxims for Young Girls.

Never make your appearance in the morning without first having dressed yourself neatly and completely. Keep your clothing, especially under-clothing, in perfect order. Never let pins do duty as buttons, or strings take the place of proper bands. Train yourself to useful occupations. Remember it is wicked to waste time, and nothing gives such an impression of vanity and absolute silliness, as never having anything to do. If you are in your father's house, take some department of household labor upon yourself, and a part of needle work, and make it your business to attend to it. Do not let a call from this idle girl, or a visit from that, or an invitation from the other interfere with the performance of your duty. Let your pleasure come in as recreations, not as the business of your life. If you want to marry, do not court or try to attract the attention of gentlemen. It is better to be a woman than a wife, and do not degrade your sex by making your whole existence turn on the pivot of matrimony.

GENERAL ASSEMBLY.

January Session at Providence.

MONDAY March 13.

Senate.

The Senate met at 11 o'clock a. m., and no quorum being present, adjourned to 11 o'clock Tuesday morning.

House.

The House met as per adjournment, Mr. Speaker Barstow in the chair.

Mr. Miner, of Cranston, moved that the vote be taken on the prohibitory liquor law at 12 oclock Wednesday which was carried.

Mr. Metcalf, of Providence, from the committee on finance, reported favorably on petition of Charles Cross, of Charlestown, for the payment of certain fees and resolution to pay the same, $5,50, was read and passed.

Mr. Greene, of East Greenwich, from the committee on education, reported favorably on the petition of Thomas Simpson, et al., for act of incorporation of Prescott Post No. 1. Grand Army of the Republic, and accompanying act was read and passed.

Mr. E. C. Clarke, of South Kingstown, from the committee on militia, reported favorably on the petition of Benjamin Tallman, of Portsmouth, for pay for dinners furnished certain military companies at a brigade muster in September, 1863, and a resolution to pay for same $75 was read and passed.

Mr. Sheffield, of Newport called from the Speaker's table the act in relation to the laying out, widening and grading the streets of Newport, which was read and passed in accordance with the recommendation of the committee on the judiciary.

Mr. Green of East Greenwich, from the committee on education, reported favorably an act in amendment of Chapter 70 of the Revised Statutes, entitled an act "Of Truant Children and Absentees from School," which was read, and on motion of Mr. Greene committed to the committee on the judiciary.

Mr. Ashley, of Providence, from the committee on the judiciary, reported favorably an act in amendment of Chapter 209 of the Statutes entitled an act in amendment of and in addition to Title XXX, Chapter 218 of the Revised Statutes. 'Of offences against Public Policy,' being the act prohibiting parties from leaving the State to engage in a prize fight, which was read and passed.

Also, from same committee, reported favorably act in amendment of Chapter 216, of the Revised Statutee, 'Of offenses against Chastity, Morality and Decency,' punishing the marriage, adultery or fornication of parties within the ties of consanguinity forbidden by the laws of the State, by imprisonment not less than five or more than twenty years, which was read and passed.

Mr. Greene, of Warwick, from the committee on the judiciary, reported favorably a resolution making an appropriation of $1,500 to supply deficiencies in the Law Library, together with a communication relating to the subject from Judge Potter, which was read and the resolution passed.

Mr. Seamans, of Warwick, called from the Speaker's table the act for the protection of the scollop fishery of the State, which places the scollop fishery under the same restrictions as the oyster fishery, between the 15th of May and the 15th of September.

Pending discussion on the act, the House adjourned till Tuesday morning at half past ten a. m.

Keep the Mouth Shut.

This is very important, both for happiness and health. By keeping it shut more than it is, fewer disagreeable things will be said, which will make us less unhappy. As regards health, it is also important. People should cultivate the habit of breathing through the nose more than they do. Man's nostrils were not intended for the sole purpose of distinguishing odors, good from bad, but were put in his head to filter and purify the air he breathes before it enters his lungs, and to soften and warm it when chilled, damp, and unhealthy from the influence of a variable climate. He who breathes through his mouth will always find himself more or less in trouble with pulmonary or bronchial difficulties. It is the most hurtful thing in the world to go from a warm room, in winter or autumn evenings, and draw the damp and chilly out-door atmosphere directly into the lungs through the mouth. It has, time and time again, resulted in severe attacks of illness, and not unfrequently death.

The Great Vernal Specific.

No class of invalids are more sensitive to changes of season and variations of temperature than dyspeptics, and persons of bilious habit. Tender lungs are not more easily affected by these vicissitudes than feeble stomachs. If there is a tendency in the system to indigestion, biliousness, or bowel complaints, the variable weather of early spring is almost sure to develope one or the other of these symptoms. Intermittent fevers are also more prevalent in the spring months than at any other season except autumn. In view of these facts, this seems to be a proper time to invite especial attention to Hostetter's Stomach Bitters, a medicine, which for a long series of years, has proved superior to all others as a remedy for the above named disorders, and as protection against the miasma which frequently produces, and always aggravates them. It was formerly the practice to give violent cathartics as "spring medicines," nor is the custom yet entirely obsolete. Nothing, however, can be more illjudged and unphilosophical. The chilling moisture with which the air is loaded at the breaking up of winter, presses heavily upon the vital forces of the body, and reinforcement, not depletion, is what it requires.—The Bitters is a genial and excellent tonic, a moderate alterative, and just enough of an aperient to regulate, without convulsing, the bowels. It is, therefore, a specific peculiarly adapted to the present season.

$1,000 REWARD is offered by the proprietor of Dr. Pierce's Alt. Ext. or Golden Medical Discovery, for a medicine that will equal it in the cure of all severe lingering Coughs, "Liver Complaint" or Biliousness, and all diseases arising from impurity of the blood, as Eruptions, Pimples, Blotches and Boils.—Sold by druggists. The Genuine has Dr. Pierce's private Government Stamp on the outside wrapper. This private stamp has the Doctor's portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved on the same.

FESSENDEN'S POMADE OPTIME, as a dressing for the Hair is all that is required: purely vegetable and highly perfumed, it softens, improves and beautifies the Hair, strengthens the roots, and gives it a rich, glossy appearance. For sale by all druggists. Price 75 and 150 cents, per bottle.

CHINESE TOOTH ACHE DROPS, put up by F. G. Wells & Co. This article has been used for many years by the Chinese as an infallible and almost instantaneous cure for this most painful affliction.—For sale by all druggists. Price 25 cts. per bottle.

BURNETT'S BALSAMIC MIXTURE OF CUBEBS AND COPAIBA.—This favorite, well-known and reliable remedy for the speedy cure of "*the complaint*," is for sale by all druggists. Price $1 per bottle.

SHERMAN'S COUGH AND WORM LOZENGES, SHERMAN'S POOR MAN'S PLASTERS AND ORRIS TOOTH PASTE are still to be obtained from any druggist, prepared from the original receipts, and sold at the old prices. feb17-n&j

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & CO'S TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

Fresh Garden, Flower, Fruit, Herb, Tree & Shrub, and Evergreen Seeds, prepaid by mail, with directions for culture. Twenty-five different packets of either class for $1.00. The six classes $5.00.

20,000 lbs. TELEGRAMS.

LONDON, March 13.

The Black Sea Conference meets today, but up to a late hour last night the Due de Broglie, French Ambassador to the Court of St. James, had received no instructions to attend the session.

The French Government intends to levy a tax on imported raw material, especially textile fabrics. The tax on cotton alone is expected to produce annually from sixty to eighty millions of francs. Foreign manufactured articles will also be taxed proportionately.

All the French prisoners in Belgium have been released and have gone to their homes.

The French Journal Officiel publishes a decree approving the formation of regiments of infantry at Bordeaux, and dissolving the headquarters staff of the armies recently operating in the north, and camps of instruction at Havre, in Brittany and in the Vosges.

PARIS, March, 13.

Versailles has been evacuated by the Germans and a French garrison installed in the city.

A convention for the return of the French prisoners in Germany has been signed at Ferrieres. Some are to return by sea from Bremen and Hamburg, while others will come overland.

It has been ascertained that twenty German soldiers have been killed and sixty injured by the accident at Puteaux, on the Northwestern Railway.

The Radicals have posted placards urging the army not to fight the people, but the appeal has been productive of no effect upon the troops. Six Radical papers have been suppressed by the authorities. The city is now entirely quiet and without signs of a renewal of the recent agitation, which is condemned by the entire press.

BERLIN, March 13.

Emperor William is ill at Ferrieres, but will leave for this city on Tuesday. The journey will be direct, the Emperor's health rendering it inexpedient for him to lengthen the trip.

London, March 13.

Mr. James Stansfeld, who lately accepted a Cabinet office, has been returned to Parliament by his constituency of the city of Halifax, without opposition.

Land Grabbing Bills.

—

March 18.

The Senate Republican Caucus Committee, charged with the preparation of a bill to suppress the KuKlux outrages in the South, had a long session to-day, but did not come to any agreement. The question under discussion before the committee, how far the President should be intrusted in ordering troops into States for the suppression of outrages real or imaginary. The majority of the committee were of opinion that this right should be well guarded, as it was liable to gross violation.

Senator Morton proposes to make the outrages committed by KuKlux offences against the United States, so that they can be taken hold of by United States authorities. The Committee will have another meeting to-night and it is expected they will be ready to report a bill to the caucus which meets to-morow.

The story that Mr Sumner intends to deliver a violent philippic against the Administration seems to have been set afloat by friends of the president in the Senate, who are anxious that Sumner should prove what they have charged to wit: that he is opposed to the Administration in everything.

Mr. Sumner says he has no intention of making such speech, and never had. The President and his friends are therefore likely to be disappointed.

It is beginning to be apparent that Congress will be kept here by one pretext and another until the return of the San Domingo Commission, and that it will then be asked by the President to consider and dispose of that matter.

Senator Cameron intimated to-day that he intends to remain at the head of the Foreign Relations Committee. In reply to a request of Sumner to take early action on the French spoliation claim, Mr. Cameron said that although he had neither the experience nor the ability of Sumner, he intended to do his duty on the Committee in his humble way.

A large number of land grabbing bills were introduced in the Senate to-day, and referred to committee. Of course they stand no chance at this session.

NEW YORK, March 13.

The Tribune contains a strongly eulogistic editorial on Sumner as the foremost American Senator.

The Herald says editorially there is great danger that this attempt of Grant to introduce the discipline of the regular army into the free militia organization of the Republican party may break up the whole concern.

The Herald's Washington despatches say Sumner positively refuses to allow any of the telegrams or letters to be published which are now being forwarded him by his friends from all over the country.

The feeling among the Republicans at Washington is very bitter towards Grant. A movement is already commenced to prevent his renomination.

Radiant Burners.

THIS is the Latest and Best ROUND WICK BURNER yet offered. It takes one wick, the same size as the No. 1 German Student Lamps and gives an equal light, made very stout and will outlast two of those that are now offered by other dealers.

Scientific & Popular Medical Works

—ON—

Manhood, Womanhood, and Nervous Diseases,

PUBLISHED BY THE

PEABODY MEDICAL INSTITUTE,

No. 4 Bulfinch Street, Boston,

(Opposite Revere House.)

DR. W. H. BARKER, Assistant Physician.

Medical knowledge for everybody. 250,000 copies sold in two years.

A Book for every Man.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of EXHAUSTED VITALITY, PREMATURE DECLINE IN MAN, NERVOUS AND PHYSICAL DEBILITY, HYPOCHONDRIA, and all other diseases arising from the ERRORS OF YOUTH, OR THE INDISCRETIONS OR EXCESSES of mature years. This is indeed a book for every man. Price only $1.00. 285 pages, bound in cloth.

A Book for every Woman,

Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, from INFANCY TO OLD AGE, with elegant ILLUSTRATIVE ENGRAVINGS. 350 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.

Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of NERVOUS AND MENTAL DISEASES. 150 pp. cloth. Price $1.00, or SENT FREE on receipt of $3 for the other two books, postage paid.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the MARRIED OR SINGLE, of EITHER SEX, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the NEW DISCOVERIES of the author, whose experience is such as probably never before fell to the lot of any man, are given in full. No person should be without these valuable books.

"VALUABLE BOOKS.—We have received the valuable medical works published by the Peabody Medical Institute. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability, and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

☞ Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all parts of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE, Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all diseases requiring skill, secrecy and experience.

PUMPS,

Bells, Keys and Skates.

Friends, to JOHN G. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost;
We also have a Pump that will not freeze;
You raise the handle—water comes with ease,
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small,
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.

THE

EXTINGUISHING GAS HINGE

BURNER,

WITH THE

CHAMPION CHIMNEY,

The Best Burner and Chimney ever put upon the market.

This Burner having an EXTINGUISHER attached, by the touching of a small lever in the side of the Burner the light is instantly extinguished, thus doing away with the old method of blowing down the chimney and endangering the lives of your family and friends by an explosion—as nine-tenths of all the Kerosene accidents in the United States have been caused by blowing down the chimney. It is also a SELF-EXTINGUISHER, as there is no possible way in which this Lamp can fall that it does not put itself out—so that there can be no fire, even if the lamp should be broken and the oil spilled.

It is supplied with a GAS TUBE, to allow the vapor and gas that may be formed in the lamp to escape, thus rendering EVERY LAMP NON-EXPLOSIVE, in all hands and under all circumstances.

The Chimney, of itself, is worth all we ask for the whole, as it is warranted not to break while in use upon the Lamp. Neither hot or cold air affects it.

NEWPORT DAILY NEWS.

Female Society.

What is it that makes all those men who associate habitually with women superior to others who do not? What makes that woman who is accustomed and at ease in the society of men, superior to her sex in general? Solely because they are in the habit of free, graceful continued conversations with the other sex. Women in this way lose their frivolty, their faculties awaken, their delicacies and peculiarities unfold all their beauty and captivation in the spirit of intellectual rivalry. And the men lose their pedantic, rude, declamatory, or sullen manner. The coin of the understanding and the heart changes continually. Their asperities are rubbed off, their better materials polished and brightened, and their richness, like the gold is wrought into finer workmanship by the fingers of women than it ever could be by those of man. The iron and steel of their characters are hidden, like the character and armor of a giant, by studs and knots of gold and precious stones when they are not wanted in actual warfare.

Burns and Scalds.

Dr. S. B. Judkin, of Ohio, says: "I have treated a good many cases of burns and scalds, and to my entire satisfaction. I dissolve white lead in flaxseed oil, to the consistency of milk, and apply over the entire burn or scald every five minutes. I have been in the habit of using a soft feather to apply the liniment. I have used this preparation a great many times in the fifteen years of my practice, and have never been disappointed; it gives relief sooner, and is more permanent in its effects, than any preparation I am acquainted with. I think any one testing it will be satisfied. It should be applied often, and a full dose of an opiate will be advantageous if the burn is deep."

Best Manufacturing Machine
—AT—
Paris Exposition, July, 1867.
NO. 1 FAMILY MACHINE.

THIS MACHINE is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.
It has a straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

SPECIAL ATTENTION IS CALLED TO OUR NEW IMPROVED

Nos. 2 & 3—Manufacturing Machines. They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of
1,200 Stitches per Minute.
Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light and are comparatively noiseless.
The Tailoring or Leather Work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.
SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.
Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.
BUT ALL QUACKS ARE NOT IGNORANT.
Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.
DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.
Medicines sent by Mail and Express to all parts of the United States.
All letters requiring advice must contain one dollar to insure an answer.
Address Dr. L. Dix, No. 21 Endicott Street, Boston, Mass.
dec31—3taw—1 year.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.
Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.
His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at
No. 21 Endicott Street, Boston.
Letters requiring advice must contain one dollar to secure an answer. Jan1—3taw—1y

The best Manufactured; Warranted for 6 years.

Fifty New and Second-hand Pianos, Melodeons and Organs of six first-class makers, *at low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.
HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*
We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*
The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*
Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*
MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument.* Stronger endorsement we could not give.—*Home Journal.*

Burlington, Cedar Rapids and Minnesota Railway.

The completion of this Road has given to these Bonds an established character equal to any mortgage issue dealt in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment, with Governments or any other security.
These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 90 miles.
The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.
A contract has been secured with the Chicago, Burlington and Quincey Railroad Company obligating the latter to invest 20 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the bonds, and establishes a large sinking fund for their redemption.
The convertibility privilege in these bonds enables them to be exchanged for stock, at par, at any time. This secures to the holder, at his option, a share in any excess of earnings over the interest obligation.
An exchange of Government securities for these bonds returns 9 1-2 per cent. interest, instead of 6 per cent., which is all that Governments pay at present price, besides leaving an immediate gain of about 20 per cent. in price for reinvestment.
All marketable securities taken in exchange free of commission and Express charges.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY
SOLICITOR OF PATENTS,
For Inventions, Trade Marks, or Designs,
No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGHART."

NEW 7-30 GOLD LOAN!
Safe! Profitable! Permanent!
JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the
First Mortgage Land Grant Gold Bonds
OF THE
Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.
The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.
They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.
The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company.
These Northern Pacific 7-30 Bonds will at all times before maturity, be received AT TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.
In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can, by converting them into Northern Pacific, increase their yearly income *one-third* and still have a perfectly reliable investment.
HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.
Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Bankers employed to sell this Loan.

Money Cannot Buy It!
For Sight is Priceless
BUT THE
DIAMOND SPECTACLES
WILL PRESERVE IT.
THE DIAMOND GLASSES,
MANUFACTURED BY
J. E. SPENCER & Co., N. Y.
Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the
MOST PERFECT,
Natural, Artificial help to the human eye ever known.
They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.
The Scientific Principle
On which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.
They are Mounted in the Finest Manner,
In frames of the best quality, of all materials used for that purpose.
Their Finish and Durability
CANNOT BE SURPASSED.
CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

MANHOOD: HOW LOST, HOW RESTORED

JUST PUBLISHED, a new edition of **Dr. Culverwell's Celebrated Essay** on the RADICAL cure (without medicine) of SPERMATORRHOEA or seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance.
Price, in a sealed envelope, only 6 cents.
The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.
This Lecture should be in the hands of every youth and every man in the land.
Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.
Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Carbolic Tablets,
Prepared by DR. WELLS,

The most important discovery of the age. Is this wonderful HEALING and CLEANSING agent for all diseases or weakness of the RESPIRATORY ORGANS, SORE THROAT, SUDDEN COLD, HOARSENESS, CATARRH, ASTHMA, DRYNESS of the THROAT, or WINDPIPE, DISEASE of the LUNGS and for all irritation of the mucous membrane.
All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.
DR. WELLS' CARBOLIC TABLETS
act directly on the mucus membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and lung difficulty.
The proprietors would say, all first-class medicines have their imitations, and they would
CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.
